Weihnachtskarte mit Stoff-Steif

Instructions No. 679

Difficulty: Advanced

Use **fabric stiffener** to create **stars** for a Christmas card or gift tag. This tutorial is an example of how easy it is to create stars with fabric stiffener.

Here's how it works

Cut the fabric into pieces.

Pour the fabric stiff into a container, completely submerge the cut pieces until they are completely soaked with the liquid.

Then wring them out and spread them out smoothly on a surface covered with foil.

Leave to dry overnight.

Make a template for the star using the template.

Transfer the outline onto the hardened fabric with the line-ex pen and cut it out.

Cut out the star with the Pearl-Border the pen and let it drv.

Cut a map from white Craft cardboard sheet and fold in the middle.

Glue a piece of red cardboard as a passe-partout, on it the fabric star.

Cut a small star out of white Craft cardboard sheet and glue it with a button on the fabric star.

With the Pearl Write "merry x mas" on the red cardboard and let it dry.

Extra tip

Stoff-Steif is very versatile. Discover further instructions to match this idea:

- Star pendant with fabric stiffener
- Candle decoration with fabric stiffener
