Window pictures forest animals

Instructions No. 1996

Difficulty: Beginner

Working time: 3 Hours

Do you feel like making a change to your windows? Our **free template** for a cute forest scene can be designed according to your wishes and arranged on your windows and **doors**. Even children have great fun with the design. You can also make up a story about the forest animals with your children and place them on the windows according to the story.

This is how the forest animals are produced:

Print out the **free template** and place it under the **foil**, which you put back into a transparent foil. This way the sheet cannot shift so easily during the painting

Before you start to design the motifs with **Window Fantasy**, you should cover your work surface to prevent contamination. You can now paint all contours with the black outline paint. Then let it dry for about 2 hours. However, the drying time depends on the thickness of your drawn line

Afterwards you can decorate the surfaces with the colours as you wish. If necessary, use a bamboo stick to distribute the colours in the areas

Once you have painted all surfaces, the paint should dry for at least 24 hours. After everything has dried, you can carefully remove the designs from the film and apply them to your windows or doors

It is winter now and you want to attach our Window Fantasy Advent Calendar to your windows? Nothing easier than that! Simply pull the motifs off your windows, clean them with window cleaner if necessary and apply your new designed motifs.

Must Have

VBS Window Color, Brown

Fill volume: 20 ml

48,79 Kč (1 l = 2.439,50 Kč)
