Wire Heart

Instructions No. 1586

Difficulty: Beginner

Working time: 20 Minutes

Discover here how creative and decorative the material wire is! With only little effort you can make this heart yourself!

Designing a heart

Draw a heart measuring approx. 35 x 35 cm on Paper and use this as a motif template. Lay the wire netting in two layers on the template and pinch off the wire along the template contours with a pair of pincers.

Now the edges can be bent over except for a small opening and thus also woven into each other at the same time, so that a self-made heart basket is created. This is filled with moss and pressed into a flat heart shape. When the moss heart is completely formed, the wire opening can be closed.

Finish

Arrange any flowers, Decorative ribbons, butterflies or other decorations on the heart, fix it with hot glue or tie it up. Finally, tie ribbon to the heart for hanging

Must Have

Mesh wire, mesh size 14x14 mm

Length: 5 m
Width: 50 cm
Material: Wire

489,99 Kč (1 m2 = 196,00 Kč)
