Wooden stand with decorated metal rings

Instructions No. 2870

Difficulty: Beginner

Working time: 3 Hours

This simple yet impressive decoration is perfect for the Christmas and winter season. With little effort, you too can create this pretty decoration for your home. The nice thing is that the little houses can be coloured in the colours of your choice and thus perfectly match your home decoration.

Wooden stand with decorative rings

Remove the small punched motifs from the sheet and design them as desired with different craft colors. Here we have opted for the VBS "Natural Harmony" craft paint set. Leave the paint to dry.

Glue ribbons to the center of the large metal ring with hot glue and attach the painted little houses to them. Use some hot glue for this too. Once dry, glue the dried eucalyptus leaves to one side of the ring.

Then press the ring firmly into the back rail of the wooden stand.

Decorate the smaller ring on both sides with the eucalyptus leaves and then press the small ring into the front rail.

Fix everything with a little hot glue if necessary. Decorate the small metal ring and the wooden stand with the painted houses as desired.
