This is how the cute angels are made:

Glue the **Wooden balls** with hot glue on the staples**.** Make sure that one of the holes in the ball is facing upwards

Now paint on hair as desired. Best suited for this is **Handicraft paint**

For each angel you bend two white **chenille** wires in the middle, hang them into each other and twist them together to create a thicker wire for each angel

This is then wrapped around the clip underneath the head in such a way that approx. 10cm protrude on both sides as arms

Cut 3 x 15cm from the **fur band** for each angel. Loose fur can be easily removed at the cut with your fingers. Glue the fur around the body of the angel with hot glue. Then paint the fur into shape

Download our **template** and transfer the wings template to the Felt. cut out and glue the wings on the back of the angel

For each angel is needed of the silver 1/2 Chenille wire wire. Form the halo out of it by leaving it straight for about 3 cm and then form a circle over it

Glue Wooden ball the finished **halo** with hot glue into the hole of the hole

Now you can finally paint faces on the angels with markers. You can draw them according to your own ideas or you can use our template as an aid and transfer them with graphite paper.
