

Hello neighbour.

I've invited a few friends over for a film night today.

Of course, popcorn is a must!

So that everyone has their own portion, I've made popcorn boxes for everyone.

Take a look: I've made one for you too.

If you also want to invite friends over and make popcorn boxes for them, I've created a large crafting template for you and have the paper and scissors ready.

Have a look at the blades of the scissors...

Aren't they super!

I hope you have lots of fun making them

Yours

P.S. I hope we're not too loud tonight.
